Agenda Item(s):

M2a2. Guidance and Rulemaking

Comment:

As someone who will be inheriting a rental property in the future which is currently my primary residence, I am concerned about how this law was promoted to the public before the election and how it will be enacted. As the parent of an adult child with disabilities who hoped to also pass this property on to my child, I am worried he will not be able to maintain the property taxes if he inherits the home and it is reassessed.
