Subject: Comments on Proposed R&T 441(d) Information Request Form

Mr. Yeung,

Thank you for the opportunity to comment on the proposed R&T Code 441(d) information request form.

I believe the form would be improved by inserting the actual wording of R&T 441(d)(1) at the beginning of the first paragraph on the "Important Information" page. The language of 441(d)(1) is pretty straightforward. Including it in the form would help property owners understand the statutory scope of the assessor's ability to gather taxpayer information.
