## INTRODUCTION

The purpose of this report is to supply data that are useful for comparing the operations of an assessor's office with those of other county assessors.<sup>1</sup> Possible uses for the data contained in this report are management/staff planning and budget development.

We would like to caution the reader to use care in comparing data contained in this report. Income, expenses, budgeted positions, and workload reported, all relate to the 2015-16 fiscal year. However, the 2016-17 assessment roll was prepared in the 2015-16 fiscal year using budget and staff for that fiscal year.

These data were compiled by the Board's Property Tax Department, County-Assessed Properties Division, from responses to questionnaires sent to all assessors. Please note that the figures and totals in this report may be incomplete in that they represent a comparison of *furnished data only*. Fifty-three of the fifty-eight counties reported data; Glenn, Lake, Mendocino, Sierra, and Trinity Counties did not provide data.

Please note that the number in parentheses below the column category represents the corresponding question number in the questionnaire, CAO 2016/023, dated September 28, 2016.

Any questions concerning this report should be directed to the County-Assessed Properties Division at 1-916-274-3350. Any questions concerning the data submitted by a particular county should be directed to that county.

---

<sup>1</sup> Several counties have combined the assessor's office with other county offices, such as the recorder and the clerk. For those offices with combined functions, the data requested and used represent only those related to the function of the assessor as furnished by them.

Table A, Column 4: In 2005 the state legislature suspended PTAGP funding. 13.0 full time employees were transferred from PTAGP to the Assessor General Fund on 07/01/06. Of the remaining PTAGP reserve funds \$3,584 was used for the upgrade/replacement of 3 iPads to iPad Pro along with support and maintenance and \$301 for 1 license of Acrobat Professional DC. In addition, \$5,428 was used to support and maintain two PCs.

Table A, Column 7: Sonoma County maintains a separate trust account for revenue from Assessor property characteristic data sales. An additional \$23,111 in property characteristic data sales revenue and \$4,618 in interest was collected in that account. The remaining PTAGP reserve fund balance earned an additional \$428 in interest on pool cash.

## OTHER COMMENTS

*Only the counties listed provided other comments.*

### MARIN

Table E: To avoid double-reporting the 13 properties included in Column 16, other property type counts and values are affected as follows:

Column 1 is reduced by a count of 10 and a value of \$1,412

Column 2 is reduced by a count of 1 and a value of \$58,874

Column 8 is reduced by a count of 2 and a value of \$17,858,153

Table G, Column 1 includes Vessel Property Statements mailed, not the count of vessels.

Table G, Columns 5 and 10 include counts for business and other personal property.

Table G, Column 8 includes the count of e-filers from Column 9.

Table G, Columns 6, 8 and 9 include counts for business property.

Not included in Table G, Column 11 is Floating Homes. These are reported on Table E and in Comments 3.

The total of Table G, Columns 1 through 11 does not represent the total business property statements.

### MODOC

Table E, Column 25: Included in Column 26.

Table F, Column 17: Unable to determine.

### NAPA

Table I, Column 1: This is a reset. Previous numbers were not verified. 139 is the correct number for 2015-16.

### NEVADA

Whenever there is a blank field- statistic unavailable due to prop tax system tracking limitations.

### ORANGE

Table F, Column 1: The actual gross recorded documents received by the I.D. department of the Assessor's office is 660,746. The 137,470 reported corresponds to real property in Orange County and excludes non-title items.

Table F, Column 7: The gross number of Permits received is 90,140. The 14,183 reported corresponds to real property in Orange County.

### ORANGE (cont.)

Table F, Column 16: The Orange County Assessor's office uses a hybrid of individual parcel analysis and final value adjustment based on property type and base year to complete the proposition 8 review. This is the same method we have used in previous years.

Table J, Columns 2 & 3: We do not track the information requested.

### RIVERSIDE

Table I: Total Number of Appeals Filed 2015-16:

Table I from 2014-2015 concludes 43,267 outstanding appeals as of 6/30/2015. Table J from 2014-2015 concludes 17,686 appeals resolved as of 6/30/2015.

$43,267 - 17,686 = 25,581$  carried over to 2015-2016. There was no Column 9 for carryover in the BOE Table I for 2015-2016, therefore nowhere to indicate the 25,581 carried over to 2015-2016. The total filed of 4,209 is correct.

In Table J for 2015-2016 the total resolved of 15,807 is correct. Therefore,  $25,581$  carried over minus  $15,807 = 10,174$ .

Those 10,174 are the 2014 timeshare cases withdrawn on 7/11/2016. Due to the timing of the 7/11/2016 withdrawals, and the 2015-2016 report completed/sent.

### SACRAMENTO

Table E, Column 18: Parcel count does not include non-assessable mobilehomes.

Table E, Column 23: Number of units is extracted location count. In prior years we reported parcel count. This year we've counted multiple parcels as one location.

Assessed Value does not include Secured Personal Property and Fixtures. Reported figure is adjusted to reconcile with Total Unsecured Roll as certified and reported in BOE 801/802 in July 2016.

Table F: Similar to permits, we receive a voluminous amount of documents each year, but many are non-appraisable CIOs, while others are not CIOs at all.

**OTHER COMMENTS  
CONTINUED**

*Only the counties listed provided other comments.*

**SACRAMENTO (cont).**

Table F, Column 7: In past years, we reported only those permits "Screened In" for appraiser review. This year, and forward, we are reporting "All Building Permits Received" which includes numerous activities (re-roofs, etc.) that are "Screened-Out."

Table F, Column 10: This year we launched our new Parcel Creation application. The only statistic we can extract at this time is 2,250 new parcels created during the reporting period. This figure includes new subdivision lots (Table F, Column 11). At this time we are unable to break out subdivision lots from new parcels count.

Table F, Column 11: Included in Column 10. Unable to break out from New Parcels count. Maybe next year.

Table G, Columns 8 & 9: Similar to recorded documents and building permits, many of the paper and electronically filed Business Property statements we receive do not result in assessments. (Of the 11,679 statements filed electronically, many did not result in assessments). Of the 11,120 Property statements that resulted in assessments, many were filed on paper hard copy. (It would not be appropriate to include the entire Column 9 figure in Column 8).

Table G, Column 15: Reported figure is the sum of all variances.

Table I, Column 4: Included in Columns 2 & 3: unable to break out Rural appeals separately at this time.
