No. 2000/007

January 19, 2000

TO COUNTY ASSESSORS AND INTERESTED PARTIES:

REPRESENTATIVE PERIODS FOR THE 2000 TAX YEAR  
FOR THE ASSESSMENT OF AIRCRAFT OPERATED BY  
CERTIFICATED AIR CARRIERS AND SCHEDULED AIR TAXI OPERATORS

Pursuant to the provisions of section 1153 of the Revenue and Taxation Code and Title 18, section 202 of the California Code of Regulations, the State Board of Equalization designates the following representative periods for use in assessing the aircraft of the captioned carriers as of January 1, 2000:

I. Scheduled Activity

For aircraft of a type which were controlled on 12:01 a.m. January 1, 2000 by the reporting carrier, the representative period for measuring the scheduled ground and flight time and the scheduled arrival and departure activities shall be a consecutive seven-day period as reflected in the schedules in effect at 12:00 noon on Sunday, January 9, 2000. The last part of the foregoing sentence is underlined to emphasize that the one-week schedule to be reported is the schedule in effect only at the specified time and date, regardless of any changes to the schedule that may be planned and/or implemented during the ensuing week.

II. Nonscheduled Activity

For aircraft of a type which were controlled on 12:01 a.m. January 1, 2000 by the reporting carrier, the representative period for measuring the nonscheduled ground and flight time and nonscheduled arrival and departure activities shall be:

- (1) The twelve-month period from January 1, 1999 through December 31, 1999, if the aircraft was first used by the reporting carrier in revenue service on or before January 1, 1999, and was part of the carrier's fleet at both the beginning and the end of the period.
- (2) A period beginning with the carrier's first use of the aircraft in revenue service during the twelve-month period from January 1, 1999 through December 31, 1999, and ending with December 31, 1999, if that first use occurred between January 1, 1999 and November 1, 1999.

- (3) A period beginning with the carrier's first use of the aircraft in revenue service and ending 60 days thereafter, but not later than February 29, 2000 if that first use or control occurred after October 31, 1999. This paragraph is not applicable if the first control of the aircraft occurred after 12:01 a.m., January 1, 2000.
- (4) If, during any time within the periods specified in subparagraphs (1) through (3), the aircraft was not controlled by the reporting carrier, that time shall be excluded from the representative period for the aircraft.

III. A separate flight-and-ground-time factor and arrival-and-departure factor must be computed for each type of aircraft. The separate types for the 2000 lien date are designated below:

- (1) Helicopters -- All
- (2) Piston-powered fixed wing -- All
- (3) Turboprop-powered fixed wing. Each make and model designation is its own type. Due to the variety of aircraft that may be in use, it is not possible to list all types. Examples of separate types are:

If for any reason it is necessary for a carrier to combine any types listed above or to report additional types, an explanation must be included with the property statement of every assessor to whom the carrier reports. The types must be reported uniformly to every such assessor.

Enclosed are tables of standard flight times for jet aircraft. For interstate flights use the times provided in tables. The standard flight times for intrastate flights are provided as a tool for assessor's use only. **When completing Form 570-1-S, Flight Detail Jet Engine Types Only (columns 7 and 8), carriers are to report intrastate flight times as per flight schedule.**
