Executive Director

No. 2000/009

January 28, 2000

TO COUNTY ASSESSORS:

BUILDING COST INDICES

Enclosed are copies of the Building Cost Indices. This table contains a series of annual building cost indices with a current base. Original and historical costs may be trended to reflect the current cost level by multiplying the original cost by the proper factor for the year that the building was constructed.

EXAMPLE

A brick building built in 1980 cost \$300,000 at that time

$$\$300,000 \times 1.83 = \$549,000$$

These factors represent a composite of the following published index factors:

E. H. Boeckh and Associates
Engineering News Record Yearly Survey
Marshall and Stevens Company
Whitman Requardt and Associates

Please disseminate this information to your appraisal staff. If you have any questions, please contact either Russ Kovanda at (916) 322-2612 or John Ramsey at (916) 324-2771.

Sincerely,

/s/Richard C. Johnson
Deputy Director
Property Taxes Department
