INTRODUCTION

The purpose of this report is to supply data that is useful for comparing the operations of an Assessor's office with those of other County Assessors.¹ Possible uses for the data contained in this report are management/staff planning and budget development.

We would like to caution the reader to use care in comparing data contained in this report. Income, expenses, budgeted positions, and workload reported all relate to the 2018-2019 fiscal year. However, the 2019-2020 assessment roll was prepared during the 2018-2019 fiscal year, using budget and staff for that fiscal year.

This data was compiled from responses to questionnaires sent to all Assessors by the State Board of Equalization's Property Tax Department, County-Assessed Properties Division. Please note that the figures and totals in this report may be incomplete in that they represent a comparison of *furnished data only*. Fifty of the fifty-eight counties reported data; however, Calaveras, Glenn, Lake, Mendocino, Santa Barbara, Sierra, Tehama, and Trinity Counties did not provide data.

Please note that the number in parentheses below the column category represents the corresponding question number in the annual questionnaire that was issued in County Assessors' Only (CAO) letter 2019/019, dated September 11, 2019.

Any questions concerning this report should be directed to the County-Assessed Properties Division at 1-916-274-3350. Any questions concerning the data submitted by a particular county should be directed to that county.

¹ Many counties have combined the Assessor's office with other county offices, such as the recorder's and the clerk's offices. For those offices with combined functions, the data requested and used in this report represents only those related to the function of the assessor, as furnished by them.
